

To whom it may concern,

I am writing to express my concern that stations such as K-Love may be forced off the air by new FCC initiatives to expand LPFM services.

My family does NOT have cable television. I would frankly rather spend the \$40.00 per month (and I do,) supporting K-Love's commercial-free programming and ministry.

After having neurosurgery last January, it was a tremendous part of my healing process to be able to turn on K-Love day or night and know that I would hear positive Christian music and programming.

This is why I feel so strongly that I want to do my part in speaking up for the value of K-Love which is heard over FM translators.

Sincerely,

Patricia Inscho
K-Love supporter and listener
